

The Problem:

Soilings on motorbikes.

While regular and careful cleaning of motorbikes is a key prerequisite for preserving its value, it requires significant time and effort. Cleaner solvents and acidic cleaners impose the biggest problems on material, health and environment.

The Solution:

Motorcycle TOTAL CLEANER

Product Advantages:

Power gel for intensive cleaning

- Active fat solvent formulation even removes thrown-off chain grease
- POWER-GEL:
 - Sticks even on vertical surfaces
 - Removes the post persistent soilings automatically and completely
- Dries residue-freely and gleams automatically
- Is acid-free and therefore non-hazardous to surfaces
- Protects the material and in particular sensitive surfaces, like e.g. aluminium and chrome
- Protects painted metal parts and all plastic parts effectively from bleaching when applied regularly

Applications:

For complete motorbikes and all motorised bikes

How to apply:

Spray S100 Motorcycle Total Cleaner on the complete motorbike and let react for 5 minutes. Subsequently, rinse the motorbike thoroughly with a strong water jet. In case of extreme soilings (e.g. chain grease, oil scaling), let react for up to 30 minutes and hose down thoroughly. Support the cleaning procedure with the included sponge, if required.

Note: Do not use on mirror-finish unpainted aluminium. Do not use in extreme direct sunlight or on heated surfaces.
