

The Problem:

Soilings on motorbikes reduce the value and deteriorate the appearance of the latter and can even lead to technical defects.

The Solution:

Motorcycle Cleaner

Product Advantages:

Ideal for regular cleaning

- Easy cleaning of all motorbike parts
- Excellent creep performance
- Contains anti-corrosion components
- Is completely acid-free and non-hazardous to lacquer, plastic material and rubber
- The washing raw materials are bio-degradable according to the Detergent- and Cleaning Products Act

For more intensive applications, we recommend you to use our S100 Motorcycle Total Cleaner featuring the Super-Gel formulation.

Applications:

For the complete motorbike and all motorised bikes

How to apply:

Turn up the spray head far enough to obtain a good spray pattern. Spray the complete cold machine from top to bottom, let react for 5 minutes and finally rinse thoroughly with a strong water jet. Turn to close the spray head again (spill protection).

Note: Do not use on mirror-finish unpainted aluminium parts. Do not use in extreme direct sunlight or on heated surfaces.
