

The Problem:

Impacts like street dust, hairspray and sweat residuals leave an unpleasant odour in the helmet and form an unhygienic dirt layer.

The Solution:

HELMET LINING CLEANER

Product Advantages:

Enables a thorough cleaning of the helmet cushion and removes unpleasant odours

- Removes all soilings carefully and effectively
- Removes unpleasant odour and provides a fresh fragrance
- Allows for an easy and targeted application

Applications:

Suited for all helmet cushions

How to apply:

Shake the can before use and spray on the soiled areas. Clean thoroughly with a damp sponge or a lint-free terry cloth. Wash out the sponge or cloth in between.

In case of persistent soilings, let react for up to five minutes. Wipe the treated surfaces with a clean and dry cloth. Repeat the process, if required.

Note: Do not use on coated inner visor surfaces. Protect these surfaces from any contact with the cleaner.
