

The problem:

Brittle and old leather

Heat, humidity, UV-radiation, dirt etc. accelerate the aging of leather and lead to the spreading of cracks and tears.

The solution:

**Leather
Care**

Product advantages:

Precious, highly concentrated Jojobaoil preserves the natural softness of leather and provides a fibre-deep longterm protection.

- This formula is absolutely solvent - free, contains highest quality jojobaoil, highly effective care substances and temperature and aging resistant additives:
- It soaks into the deepest layers of leather and resultingly provides an anti-aging effect.
- It prevents crack formation and stops existing tears from spreading.
- It protects against fading due to UV radiation.
- It restores the original surface appearance and brings back the color depth without letting the leather shine.
- It protects against dirt accumulation and lets water collect and drop off.

Applications:

All types of smooth leather

How to apply:

- Shake well before use.
- Spread with a fine sponge on clean and dry surface.
- Let it soak into the leather and then wipe over the surface with a clean cloth.
- Keep the bottle well closed and safe from frost.
