

Background:

A1 Ultra, the new generation of automobile paint care. A new development from the Dr. Wack research laboratory. It combines premium quality with revolutionary quick action and easy application. Together, A1 Ultra Clean & Polish and A1 Ultra Minute Wax make a complete paint care system (wash - polish - protect) that takes less than half the time that ordinary product combinations take to apply. Of course, these two products can also be used separately.

The solution:

**Minute
Wax**

Product advantages:

**Sensationally quick & easy: Apply - and you're done!
- Without polishing out! -**

- Up to 4 months of the best protection against environmental and weathering influences
- Brilliant shine without clouding or haziness
- Refreshes the colours
- High-quality microfibre cloth included for perfect application
- Efficient: 250 ml is sufficient for about 5 applications

Applications:

- For all types of paint
- For restored old paint jobs polished with A1 Ultra Clean & Polish

How to apply:

Wash/polish the vehicle with A1 Ultra Clean & Polish. Then chamois down thoroughly. Using the provided microfibre cloth, apply A1 Ultra Minute Wax thinly and evenly. Then simply let dry **there is no longer any need for polishing out.**
