

## The Problem:

Plastic rear screens become turbid and milky over time through weather effects, contamination and ageing. This can impair the visibility and lead to glares, especially at night.

## The Solution:

## Convertible Rear Window Polish

## Product Advantages:

### Deeply effective against matt, blinded windscreens!

- Removes scratches and blind spots from plastic rear screens of convertibles
- Ensures a clear and safe view
- Attractive and high-grade finish
- Easy to use – also suited for polishing machines
- Efficient and easy application
- Solvent-free
- Seals the polished rear screen with integrated wax components and makes it water-proof

## Applications:

### Plastic rear screens of convertibles

## How to apply:

Shake well before use. Remove dirt from the plastic rear screen first. Apply the product carefully and evenly with a cloth or polishing wad and polish applying pressure. Let soak for about 10 minutes. Remove with a terry cloth.

**Note:** Do not use in extreme direct sunlight or on heated surfaces. Do not apply on the convertible top. Store in a frost-free place.
